Let’s get creative at home!

My Timeline
Timelines are a way to organize events over time. Timelines can be composed of words, numbers, pictures and other elements. Try creating your own timeline to reflect a memorable period in your life.

What you will need:
• Scissors
• Glue
• Writing and/or coloring utensils
• Blank paper (many sheets)
• Scrap magazines, brochures or photographs
• Any other favorite art supplies

Instructions:
1. On a sheet of paper, mark the duration of time that will represent your timeline (See the “My Big Day at the Museum” example).
2. Then, create a story by drawing, writing, cutting and pasting pictures, etc. that explain the sequence of events you chose. It can be anything!
3. Choose a title.
4. Share your timeline with others!

Extra Challenge:
Try creating a timeline based on historical events of the past. With the help of an adult, use the internet or books to identify background research and follow steps 1 - 4 above.
